I was stationed at Sub-base Pearl Harbor in 1975. I worked in the pipe shop with a Ht2 Howard Turner. We installed and removed asbestos insulation on the submarines for a while. I don't know if this is the same HT2Turner or not but I have thought about him and others from those days and the things we have done as young people. My thoughts and condolences are with the family.

Aloha Joe, thank you for this memory. Yes my daddie worked at pearl harbor at the navy shipyard. He spoke about working around asbestos as well. He then became ill after working there, lung problems. And suffered for many years until he passed on Jan. 12, 2023. He went to the doctors / hospital twice or 3 times a year because his lungs was really bad. They would always say hes a smoker and he would get so upset because he never smoke a day in his life. I miss him. If you want to watch his service i have it on file. If you'd like to see it. God bless you Sir.
