To the family and friends of Dean, or as I called him, Deano. I am so sad to learn that Dean has passed. He was a dear friend of mine for many years. We met working together @ Brew City in Worcester. We became fast friends and shared a lot of laughs and great times. Dean actually stayed in my home during a tough time. We helped each other through and after a short time we were both able to take care of ourselves and lived separately, always remaining friends and staying in touch, supporting one another and having fun together throughout the years. I had a litter of kittens, 16 years ago while Dean was staying with me. One in particular named Two Two. They formed a bond with one another, and I'll tell you, that cat has the amazing personality, love, and discipline instilled on him by Dean. He is still with me today and all the more special now. Going forward I will remember Dean whenever I play with Two Two. We had always stayed in touch, even after he moved to HI. I would send him pics of the cat and he would text or call and we would catch up. A few times in the past months I sent messages and pics and never got a response. That was unusual so I googled and to my sorrow the worst was true. I share with you all the sadness of this great loss. So does Two of Two. We always thought we would see him again one day. I have a few pics of fun times which I would love to share. I extend my sincerest condolences and share your grief. Much love for Dean. Amy Scheinin

Memories only last if you share them
