“ We spoke on the phone everyday at least 10 times. Mom would call to find out how the kids where doing, to remind me don't forget to pick up her meds, or if I could go shopping for grocery. She would let me know what was going-on around the world. Or asking me what I was cooking for dinner. My long drives to school she we would talk the whole way, even the ride home, because I was exhausted, mom would keep me company so I wouldn't fall asleep. I miss callinf her for phone numbers or recipes. I miss taking her for her doctor appointments and then we take mom to do her own shopping, she really enjoyed that. Every year we take her to do her taxes, then riding to show her the changes, Waikiki, Palolo, just journey around. My mom was amazing, smart, great cook, very caring and worried about her whole family. i so mom very much....I love you mom to infinity

“ My mom love to tell her storie's. She love the mountain. Birds. Clouds. Plants gardenia's and orchids. My mom took care of a lot of people. My mom was a great cook. She cooked all the way until the last 4 months of her life. My momma was sharp her mind was their til the end. She at all times knew everyone and mom always complimented everyone and at the end she love to take picture's. I think my mom took enough picture in this past month's than she did in her entire life. She loved sports. I could go on and on but its someone elses turn. With all my love to you mom. Muah. Give hugs to my two gurls momma i miss them so much. A hui hou.....
