“ Last November 20, 2020 we share a simple moments together yet memorable for me to remember. In this simple picture we just talk about personal matters, sending regards to our families because we were living far away from each other, and of course some random things that would come up to our mind. You were so kind to us Aunt Zenai, you were the one who introduced us to our other long lost relatives. You told me to send a friend request to them in Facebook that you had mention, I follow what you've said and on that day we know who our other relatives are. We are so happy to know about all of them and hoping soon if finally all is well, we are going to meet and getting all along with them. We are also looking forward to see you Aunt Zenai but we know that you're happy up there with him. For a meantime with no doubt you show us an unconditional love Aunt Zenai, all those days I promise to treasure and cherish our moments together. We love and missed you Aunt Zenai.
